

Housing Related Support Consultation

Overview

The County Council commissions a range of housing related support services through contracts with voluntary sector organisations. The services involved include specialist accommodation based schemes for residents who are at risk of homelessness as well as 'floating support' to residents living in community settings rather than a supported housing scheme.

Funding to support these services used to be provided to the County Council via a ring fenced government grant as part of the Supporting People programme. This was removed in 2011, since when the County Council has continued to fund services from its base budget.

In view of the discretionary nature of many of the services involved it is proposed that consideration be given to whether these services are sustainable and so the Cabinet Member has approved a process which could lead to the termination of any of the current housing support contracts with providers from April 2019 onwards. This process of engagement will be used to gather evidence to inform funding decisions for these services in December 2018 and to plan for their impact.

Why we are consulting

The County Council welcomes residents' views as part of this process to enable difficult decisions to be taken with the benefit of informed comment about the impact they may have. We regret that we are unable to reply to individual comments but all views will be carefully considered before any decisions are made.
